## PROFILE

Fullstack Developer with a passion for building robust solutions. Dedicated to teamwork, problem-solving, and continuous learning to excel in both frontend and backend development.

## WORK EXPERIENCE

### Amoeba Creative Hub, Gothenburg

Jan 2023 - May 2023

Fullstack Developer

- Created 'Fractals,' a platform-independent web app facilitating competency assessment and team collaboration in project settings.
- Employed React frontend and Firebase backend for authentication, data management, and scalability.
- Developed reusable components to streamline code maintenance and enhance efficiency.

### LoopMe Analytics, Gothenburg

Aug 2022 - Oct 2022

Frontend Developer

- Contributed to an Angular project, collaborating with senior developers to improve code quality and implement standard design patterns.
- Updated the organization's WordPress homepage, showcasing my proficiency in website development and enhancing online presence.
- Assisted in company-hosted online training workshops, collaborating with in-house trainers to showcase application functionalities and support user education.

### IES Krokslätt & Engelska Skolan Norr, Gothenburg & Stockholm

Support Teacher, Student Assistant & Fritids Pedagog

- Various roles across international schools in Sweden from 2012 - 2020
